## **Press Release**

### **decentred | distributed improvisation**

programmed by n0media

<http://webjam.nsad.ac.uk/decentred>

**15 March to 17 April 2004**

n0media have been bringing digital audio/ visual artists together to work in a series of monthly performances (WebJams) since June 2003. These performances have taken place in local & national venues connected by audio & video based Internet technologies. WebJams are relayed live on the group's website to an international audience.

Decentred is a six week residency that expands upon the WebJam concept and connects artists based in Europe, the US & Canada to perform together live over the web. The artistic focus of the project is to create improvised electronic work that can be viewed both in the gallery itself and on the Internet. The gallery is open to the public from 15<sup>th</sup> March to 17<sup>th</sup> April and performances may also be viewed at the above web address.

The residency will feature workshops with students from local schools.

The group of artists range from bands, sonic artists & musicians through to performance artists, VJ's, video artists & animators.

A full programme of performances and information about participating artists are available from Norwich Gallery or the decentred website.

An opening performance will take place on 17<sup>th</sup> March at 7pm featuring 2BitTV, n0media, Phil Archer, Andre Bosman and Shigeto Wada  
n0media are available for press interviews and can be contacted via Norwich Gallery
